SAN DIEGO ZOO WORLDWILD TOURS LEADER

Kim Lovich, San Diego Zoo Global's Curator of Herpetology & Ichthyology, manages one of the world's largest and most diverse living herpetological collections. Her primary focus is on the managed care of herpetological collections with emphasis on head-start and assurance colony capacity building with the ultimate goal of recovery of endangered and threatened species.

Kim's work has taken her all over the globe. She has managed and helped establish head-start programs for green sea turtles and tailed frogs in Canada; Fiji iguanas in Fiji; West African slender-snouted crocodiles in Cote d'Ivoire; and mountain yellow-legged frogs and western pond turtles in California. She is an accomplished scientific illustrator and has published drawings, book chapters, and papers, all relating to reptile and amphibian taxonomy, husbandry standards and field monitoring techniques.

She has firsthand knowledge of the animals of the Amazon. Earlier in her career she was the Manager/Acting Curator for Vancouver Aquarium's Graham Amazon Gallery and oversaw the care of many species from this lush region. Kim is looking forward to sharing her insights and the wonders of the Amazon with the travelers who join her on this tour.

AMAZON VOYAGE ITINERARY

Day 1 • Friday, September 27 **ARRIVE LIMA** Fly independently to Lima, and overnight at the Swissôtel.

Day 2 • Saturday, September 28 **LIMA / IQUITOS / EMBARK** Fly over the Andes to Iquitos, where we enjoy an encounter at the Manatee Research Center. Days 3-8 • Sunday-Friday, September 29 – October 4 **AMAZON RIVER & TRIBUTARIES** Spend the next six nights aboard a plush riverboat navigating deep into the tributaries of the Amazon—a web of forests and lakes that pulsates with a chorus of birdlife, far-off calls of primates and flashes of spectacular butterflies.

More than 1,300 species of birds, 40,000 plant species, and gray and pink river dolphins can be found in the lush, ever-changing jungle we know simply as “The Amazon.” Enjoy unprecedented access to three habitats—varzea, igapó, and palm-flooded forest—including the deep reaches of the protected Pacaya-Samiria Reserve, for the greatest diversity of wildlife sightings. Nighttime excursions may reveal caimans, capybaras, common potoos, frogs, and other nocturnal wildlife. Periodically throughout the year, guests may even release turtle hatchlings. Your daily excursions include early morning birding, enriching presentations, school visits in local villages, and even piranha fishing! Learn about the lives of the Ribereño people as we visit villages perched along the riverbanks. This is a fantastic opportunity to stroll through their gardens, learning about medicinal plants from a local shaman. Depending on the villages visited during your voyage, you may also see an International Expeditions-funded water treatment tower or home filtration systems.

Pointing out details no guidebook could provide are your IE Expedition Leader and the ship's team of world-class naturalists, while *Zafiro's* attentive 22-member crew ensures exceptional service on the river. (B,L,D Daily)
